*Appetizers will be provided before Dr. Robinson's presentation*

**About Dr. Robinson**

Luther K. Robinson, MD, is with the State University of New York School of Medicine and Biomedical Sciences, and is Director of Dysmorphology and Clinical Genetics in the Division of Genetics of the Women and Children's Hospital of Buffalo at Kaleida Health. He conducts studies on Fetal Alcohol Syndrome in the United States, Russia, Europe and South Africa, and was a member of the first National Task Force on Fetal Alcohol Syndrome/Fetal Alcohol Effects.

## *The Spectrum of Fetal Alcohol Disorder (FASD):*

**Luther Robinson, MD**

**Date:** Wednesday, September 9, 2009

**Time:** 4:30-5:30 p.m. reception  
5:30-6:30 p.m. presentation

**Location:** IVDL Room  
Center for Global Health Systems,  
Management, and Policy  
3123 Research Blvd., Suite 200  
Kettering, Ohio 45420

Dr. Robinson's presentation is part of a week-long observance to raise awareness of FASD, which can have negative life-long effects on children and their families. FASDs are 100% preventable, and when they do occur, are often misdiagnosed.

This presentation is being offered free of charge.  
Space is limited.

Please RSVP by Tuesday, 9/8/09  
to Pam Mondini via email at  
[pam.mondini@wright.edu](mailto:pam.mondini@wright.edu)  
or by telephone at 937-258-5555.
